# John Jeong's Portfolio

John Jeong's Portfolio is a personal website where recruiters or peers can learn about the projects that John has done and his professional skills.

_____

John Jeong's Portfolio provides an opportunity for recruiters and fellow peers to learn about John's professional life. This website will have vast information on John's past projects and developer skills. Also, this website will give an option to the visitors to send contacts and share their ideas for web development with John. This website is accessible to anyone who wishes to learn about John. There will not be any sign-in systems required to access the website.
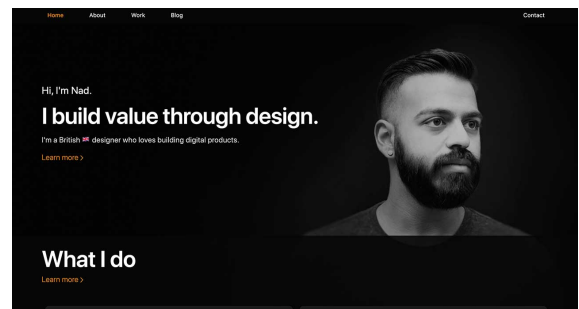

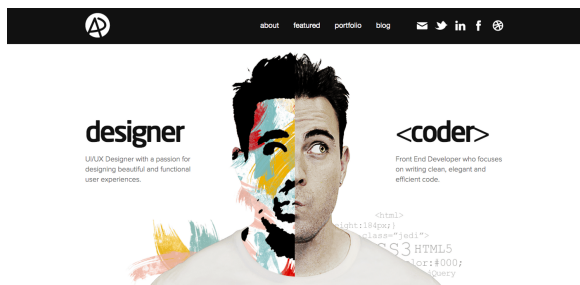

## PERSONAS

### RECRUITERS
College recruiters who would like to learn about John's skills and careers.

### FELLOW PEERS AND COWORKERS
Fellow peers and coworkers who would like to connect with John.
